Re: Withdrawal of Notice of Intention to Commence Large Mining Operations, United States Gypsum Company (USG), San Rafael Quarry, M/015/075 (UTU-73777), Emery County, Utah

Dear Mr. Tilley:

On June 11, 1998 the Division received a Plan of Operations (POO)/Notice of Intention to Commence Large Mining Operations (LMO) on your San Rafael Quarry. On April 2, 1999 we received a small mine notice for this same vicinity and also a letter requesting that we rescind the POO/LMO.

The Division did not complete a review of the LMO application and no surface disturbance was created as part of the LMO. **The Division will withdraw the LMO application and change the Division file number from M/015/075 to S/015/075.** A new LMO application and approval will be required if USG wishes to conduct future large mine operations in this area.

The Division received a permit fee payment of \$350 with the 6/11/98 POO/LMO submission and a \$100 permit fee payment with the recent new small mine notice. Since the Division did not complete a review of the POO/LMO, acceptance of both the \$350 fee and \$100 fee is inappropriate. Since both payments were within the same fiscal year, the Division will apply the initial \$350 payment to this new small mine notice and return the \$100 payment to USG, check #22308580 enclosed.

If you have any questions regarding our withdrawal of this large mine application please call me at (801) 538-5286 or Tony Gallegos at 538-5267. Thank you for your cooperation.

Sincerely,

D. Wayne Hedberg
